

GARBAGE CAN POLICIES

WHEREAS it has become necessary to set policies for the garbage containers used in Bear River City, Utah as follows:

All households within Bear River City are required to participate in the automated garbage system, unless their home is located in an area which is inaccessible to the garbage truck, or they have a need for specialized services. Garbage service is available to households located outside the city limits, but in close proximity, upon approval by the City Council and garbage service provider.

Each household is provided a garbage can from garbage service provider and pays a monthly fee for the service. Fees are set by resolution. Should a garbage can become damaged from normal wear and tear, a functional replacement will be provided by garbage service provider. Should damage result from abuse, neglect, or similar action the homeowner will be charged current pricing to replace the garbage can.

If a household desires an additional garbage can, the household must first contact the city and make the request. The city will coordinate with garbage service provider for delivery of the additional can. The household will not be required to purchase an additional can from garbage service provider. The household will also be billed an additional monthly service fee for the additional garbage can.

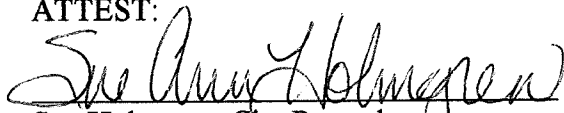

If the household no longer needs the additional can, the household must notify the city. The city will coordinate pick-up of the can. Partial refunds may be available depending on age and condition of can.

THEREFORE be it resolved the City Council of Bear River City, Utah hereby adopts these garbage can policies which shall become effective immediately and supersede any other policies which are in conflict.

PASSED AND ADOPTED BY THE CITY COUNCIL OF BEAR RIVER CITY, UTAH THIS
7th DAY OF JANUARY 2015.

Bruce Anderson, Mayor

ATTEST:

Sue Holmgren, City Recorder
